

We are looking for ...

## Software System Designer (m/f)

The task of the SW system designer is to design and define the architecture of the entire system. He or she takes account of the fulfillment of customer requirements as well as ensuring stability, expandability, maintainability and testability. The SW system designer creates concepts and defines components and mechanisms that should be used. Through reviews, he/she ensures that they are adhered to. He/she also prepares decisions on whether to buy, redevelop, or take components out of existing systems. Furthermore, the system designer assists hardware designers in selecting and sizing the components for the target hardware.

### Your profile:

- Degree in the field of electrical engineering, computer science or comparable qualifications
- Good knowledge of German and English
- Excellent communication skills
- Results- and customer-oriented approach
- Analytical thinking and capacity for abstraction
- Planning and organizational capability
- Willingness to learn

### Other useful knowledge:

- General experience with embedded systems
- Handling common development and design tools
- Safe use of UML

### Have we aroused your interest?

Then we look forward to your relevant application documents, along with the cover letter including your availability at [jobs@schleissheimer.de](mailto:jobs@schleissheimer.de). If you have any questions, please feel free to contact us per mail to [jobs@schleissheimer.de](mailto:jobs@schleissheimer.de) or call us:

Antje Illing: +49 (0) 60349148-701

Doreen Kutt: +49 (0) 60349148-727

### Your tasks include:

- Design and definition of entire software systems
- Validation of customer requirements
- Responsibility for the quality and stability of the system
- Development of new technologies
- Coordination with the hardware designer

### Here's what we offer you:

- Exciting tasks in an international and emerging company
- An extensive induction and training program
- Flexible working hours
- An attractive remuneration, incl. 13th month salary
- The opportunity for continuous education and training
